General Counsel

Samsung Semiconductor, Inc
3655 North First Street
San Jose, California 95134-1713Re: Notice of Infringement

Dear Counsel:

As you are aware, the Joint Development and License Agreement between Netlist, Inc. ("Netlist") and Samsung Electronics Co., Ltd. ("Samsung") has been terminated, and Samsung no longer is licensed to any of Netlist's portfolio of patents. Netlist is the owner of over 100 patents and patent applications related to memory technologies, including Load Reduced Dual In-line Memory Modules ("LRDIMMs") and Registered Dual In-line Memory Modules ("RDIMMs"). Since its inception, Netlist has spent a considerable amount of resources in research and development, as well as to acquire the intellectual property associated with those efforts.

Despite the termination of the Joint Development and License Agreement, Samsung continues to unlawfully utilize Netlist's innovations and to infringe Netlist's patents, including United States Patent Nos. 10,217,523, 10,474,595, and 9,858,218.

Netlist requests that Samsung and its subsidiaries honor third-party intellectual property rights, and as such, we ask that you or another Samsung representative contact me to discuss this matter further, and to embark on formal licensing discussions. Netlist reserves all rights and remedies.
